

How to install Action PC basketball courts/team logos

1. Before opening up Action PC basketball install all court images and team logos to C:\Program Files\Basketball 2006\photos.
2. Run Action PC Basketball.
3. Select Organize in the top tool bar.
4. Select teams.
5. Select the team to configure, the outline of the team will become highlighted.
6. Select Modify Team, the panel below appears:

7. To select a home team court. Scroll through the Court Graphic slide bar until the correct image is found. Click on the image name, if this is the correct court for this team click on the Assign Court Graphic.
8. To select a home team logo. Scroll through the Team Logo slide bar until the correct image is found. Click on the image name, if this is the correct logo for this team click on the Assign Logo.
9. Press Ok to save your selection.

Note:

This is also a good time to change as needed team information, Team type and Base Year.
